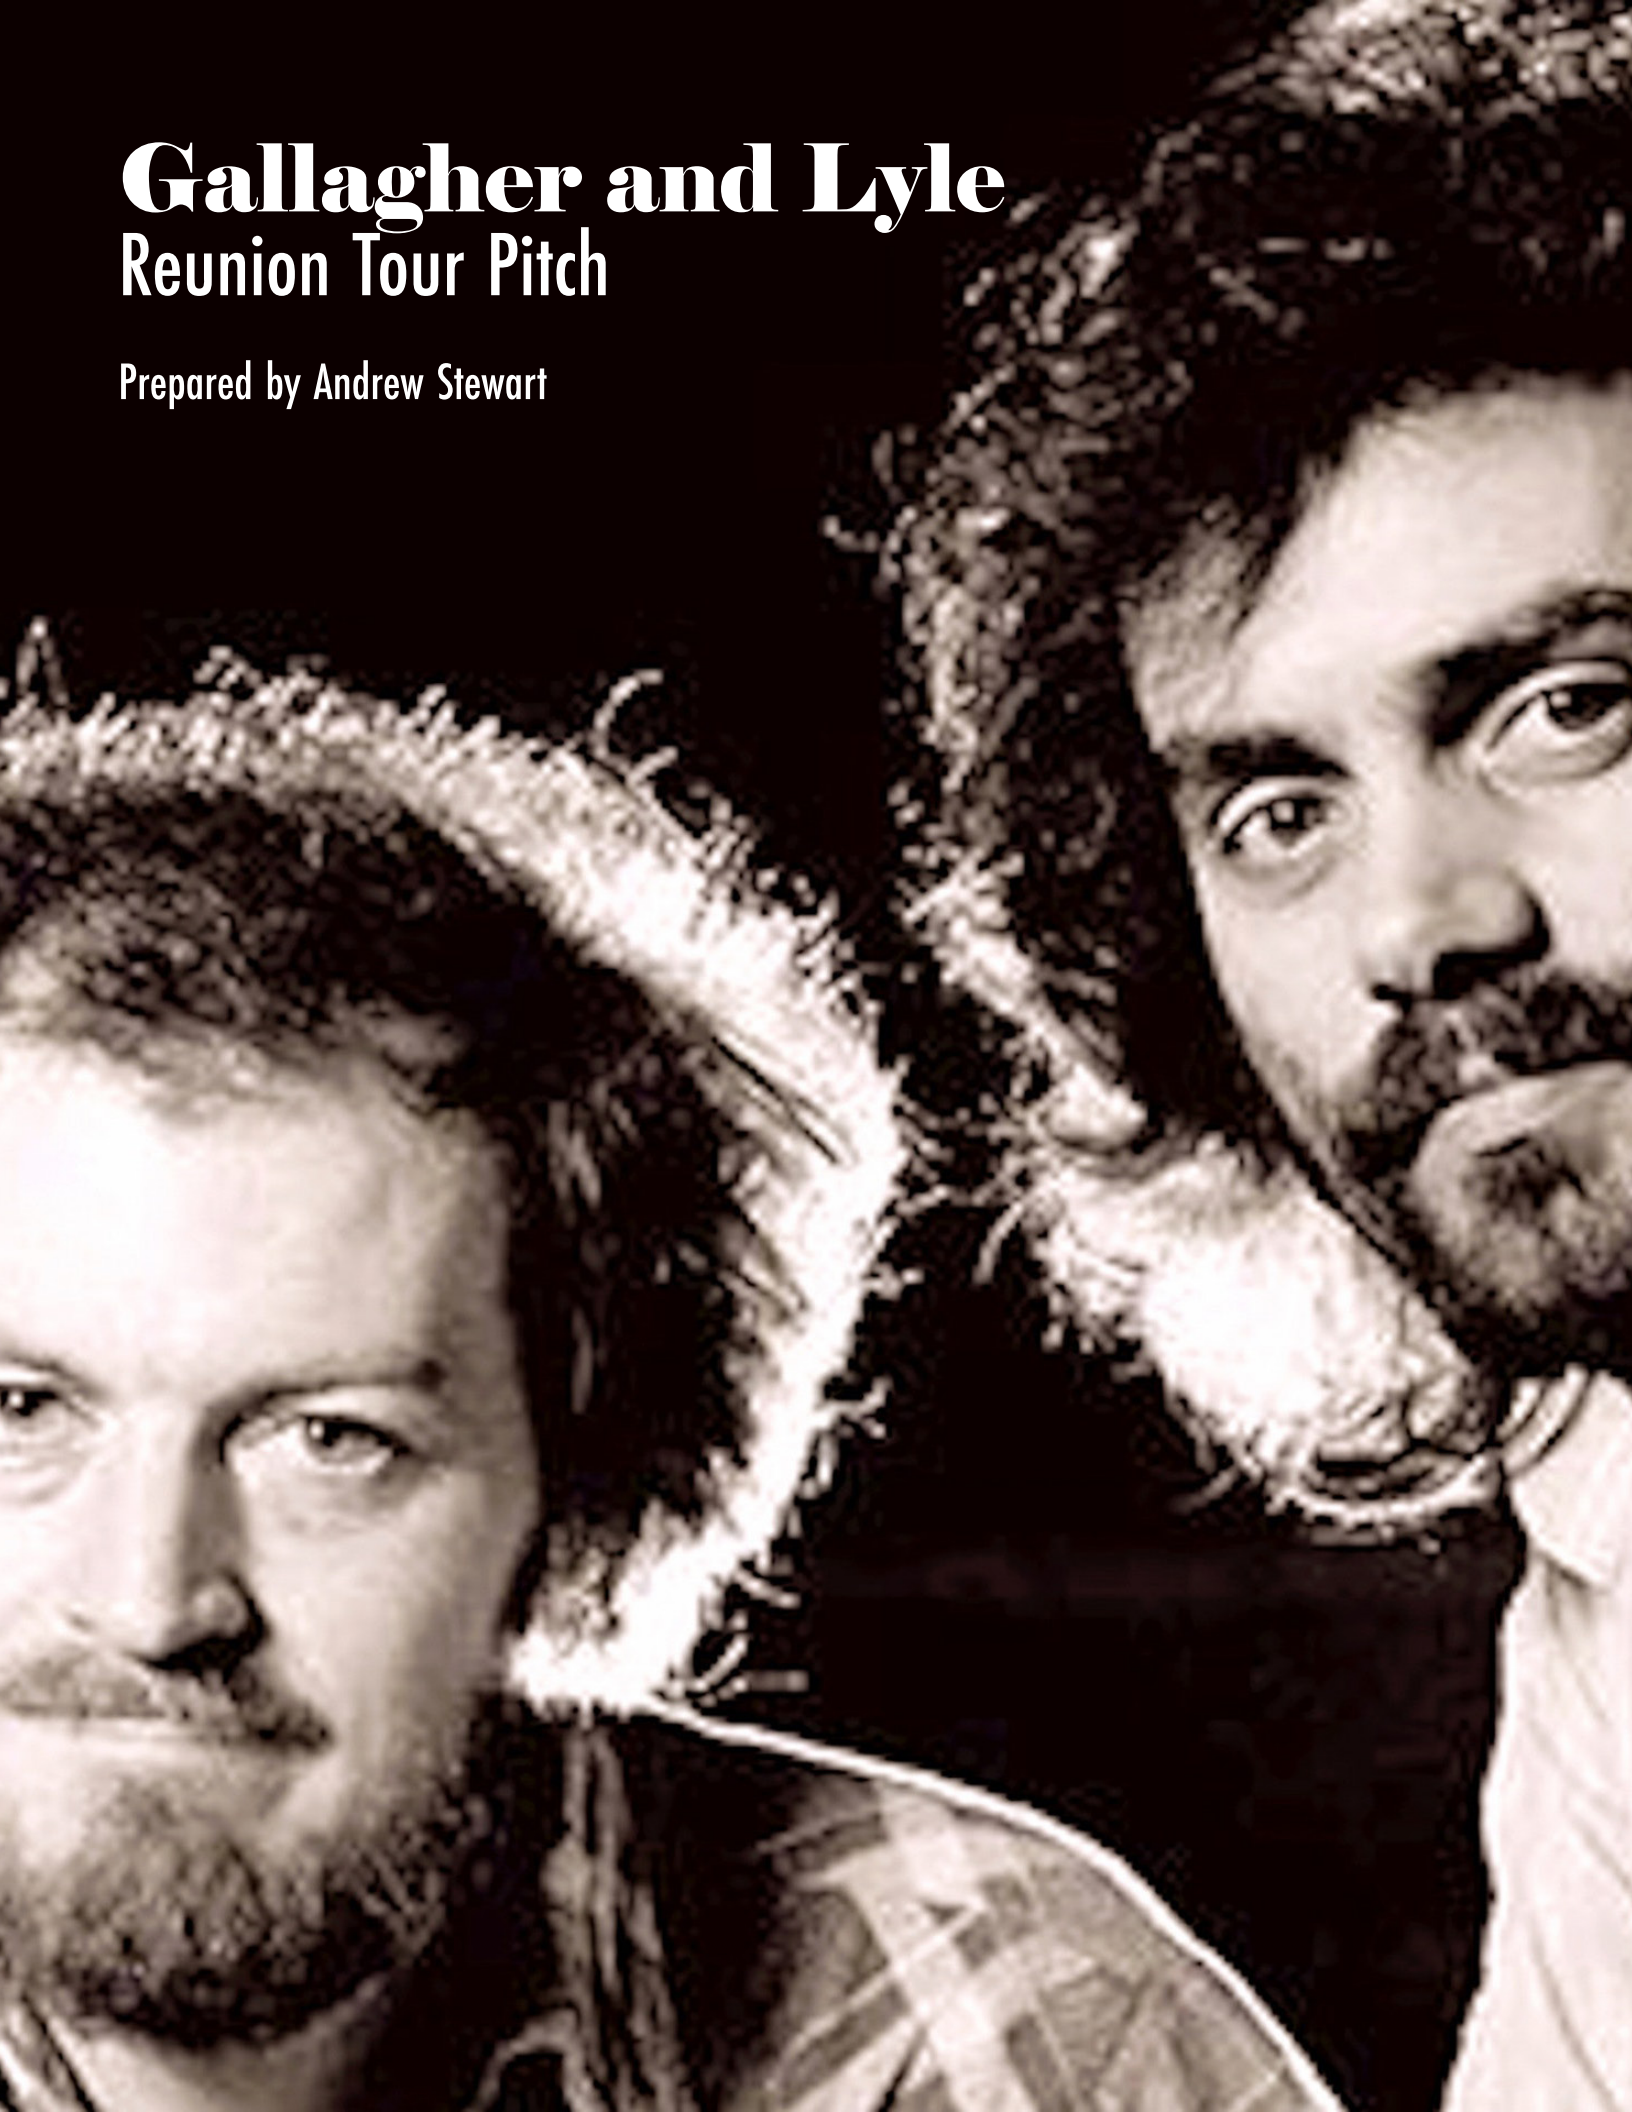
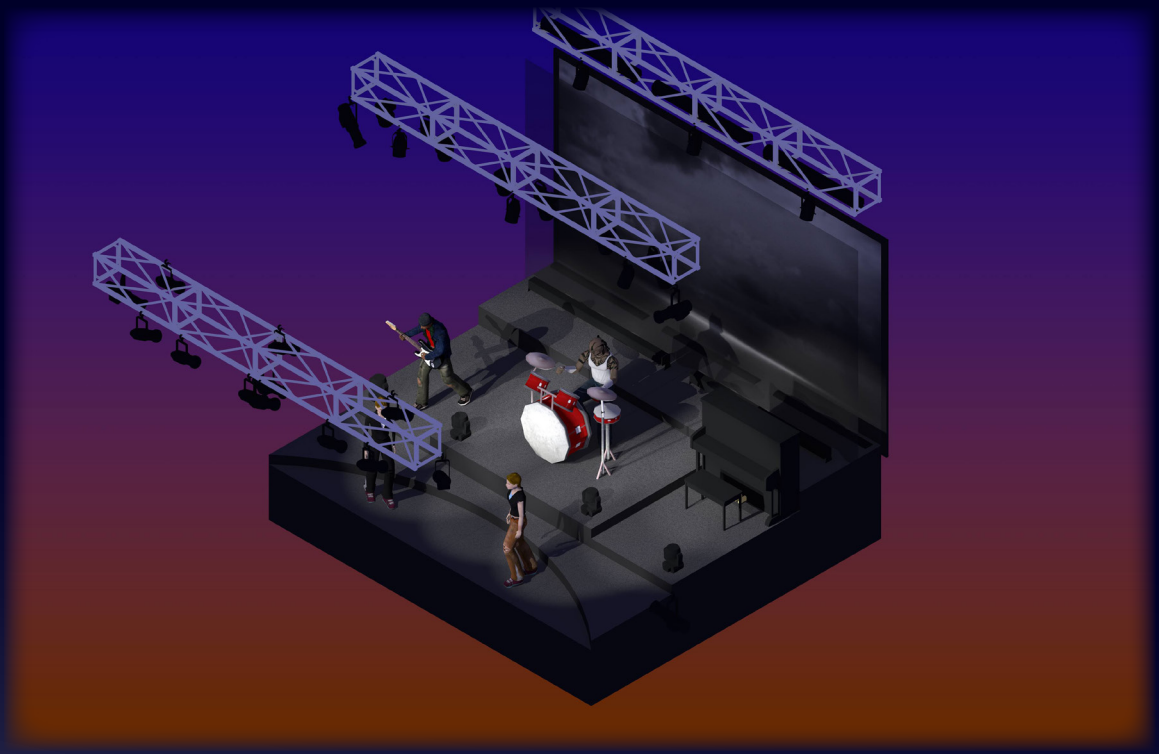
Gallagher and Lyle
Reunion Tour Pitch

Prepared by Andrew Stewart



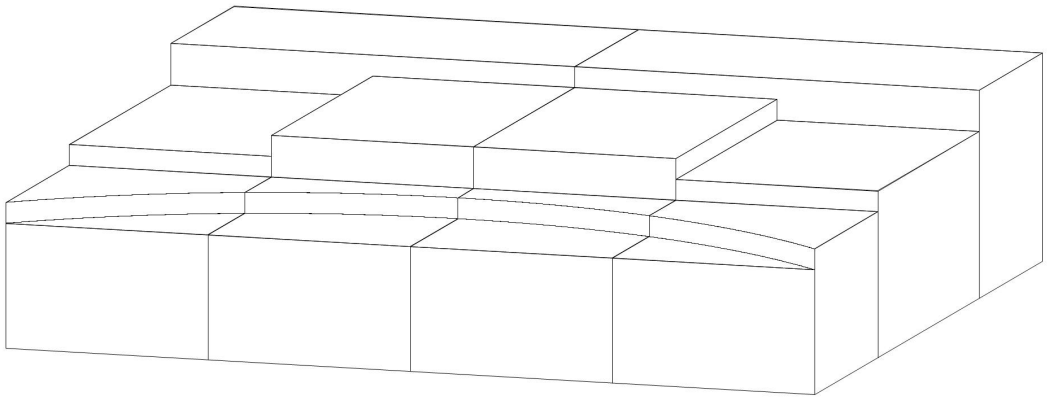
CONCEPT

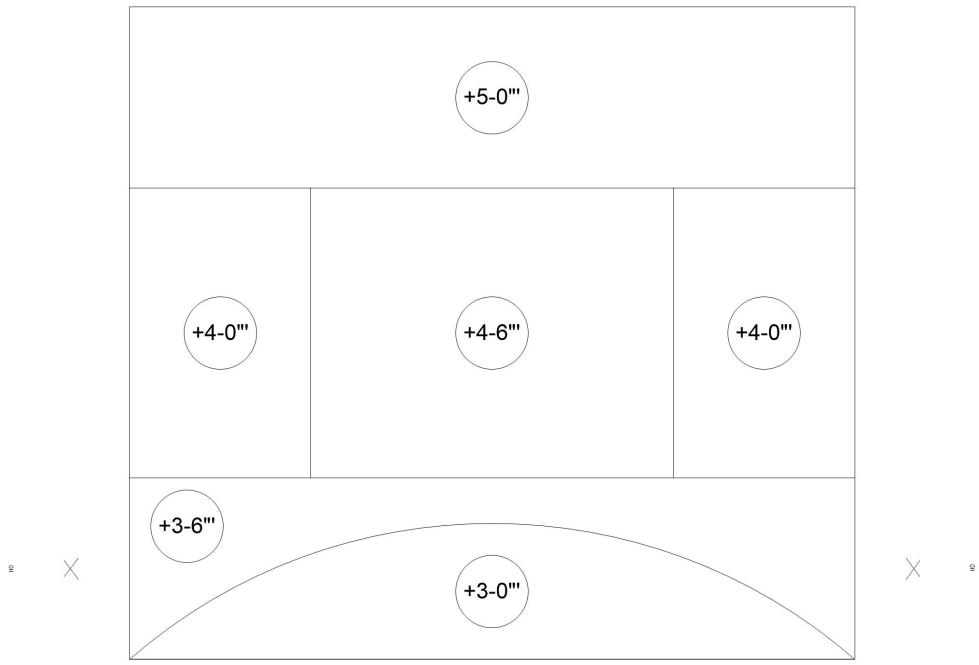
Gallagher and Lyle have enjoyed continued success due to the beautiful simplicity of their music, which can rarely be found within modern music. Those who are looking for a Gallagher and Lyle reunion are longing to experience the songs up close and personal and enjoy the moment together with the artists. This tour would strive to create an intimate environment while also providing beautiful imagery and energetic lighting to support the essence of the songs.



SCENIC ELEMENTS

A painted sky cyclorama will sit upstage as a backdrop behind a scrim. This enables the lighting of this drop during certain songs to reinforce nature imagery and the visual metaphor of a sunrise to match the building momentum of songs like “Breakaway”. Having a scrim in front of this drop means that it only will be visible when appropriate, as well as allow for a dramatic initial reveal of the cyc.





The multi-leveled platforms provide some visual interest while still being simplistic and easily walkable. The platforms closest to the audience are the lowest, so that the artists can have an intimate connection with the crowd.

BUDGET

Description	Qty	Price/Item	Total
Source 4s	9	$51.25	$461.25
Source 4 Lustr+	6	$175	$1,050
LED PAR Zoom	9	$150	$1,350
Mac AURAs	9	$455	$4,095
Strip Light Back	2	$100	$200
